

Feasibility Analysis

① Done in planning phase

type of

"A" study that determines whether a system can be ^{practically & successfully} developed using the available resources "

—— Feasibility Analysis

Feasibility is assessed in three ways:

- ① Operationally ② Technically ③ Economically

Feasibility outputs:

- ① Accepted ② Rejected ③ Accepted w/ Modifications

Technical Feasibility

- ① Tools and Hardware required
② Technical expertise

Economical Feasibility

- ① Project Development cost (Start up Cost)

Operating cost

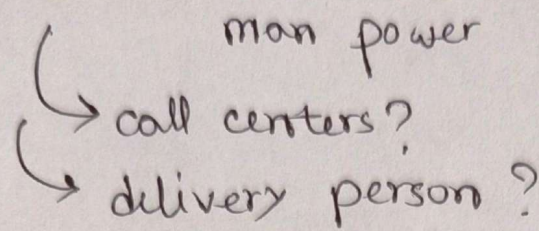

↓
<< budget >>

- ② Revenue? << RoI Analysis >>

Return of Investment

Operational Feasibility

① Enough human resources to operate the project

② Are the human resources skillful?

↳ No? → Training

↳ Yes? → Carry on

× Legal Feasibility

× Scheduling Feasibility

Why Feasibility Analysis?

↳ Project?

↙
Go?

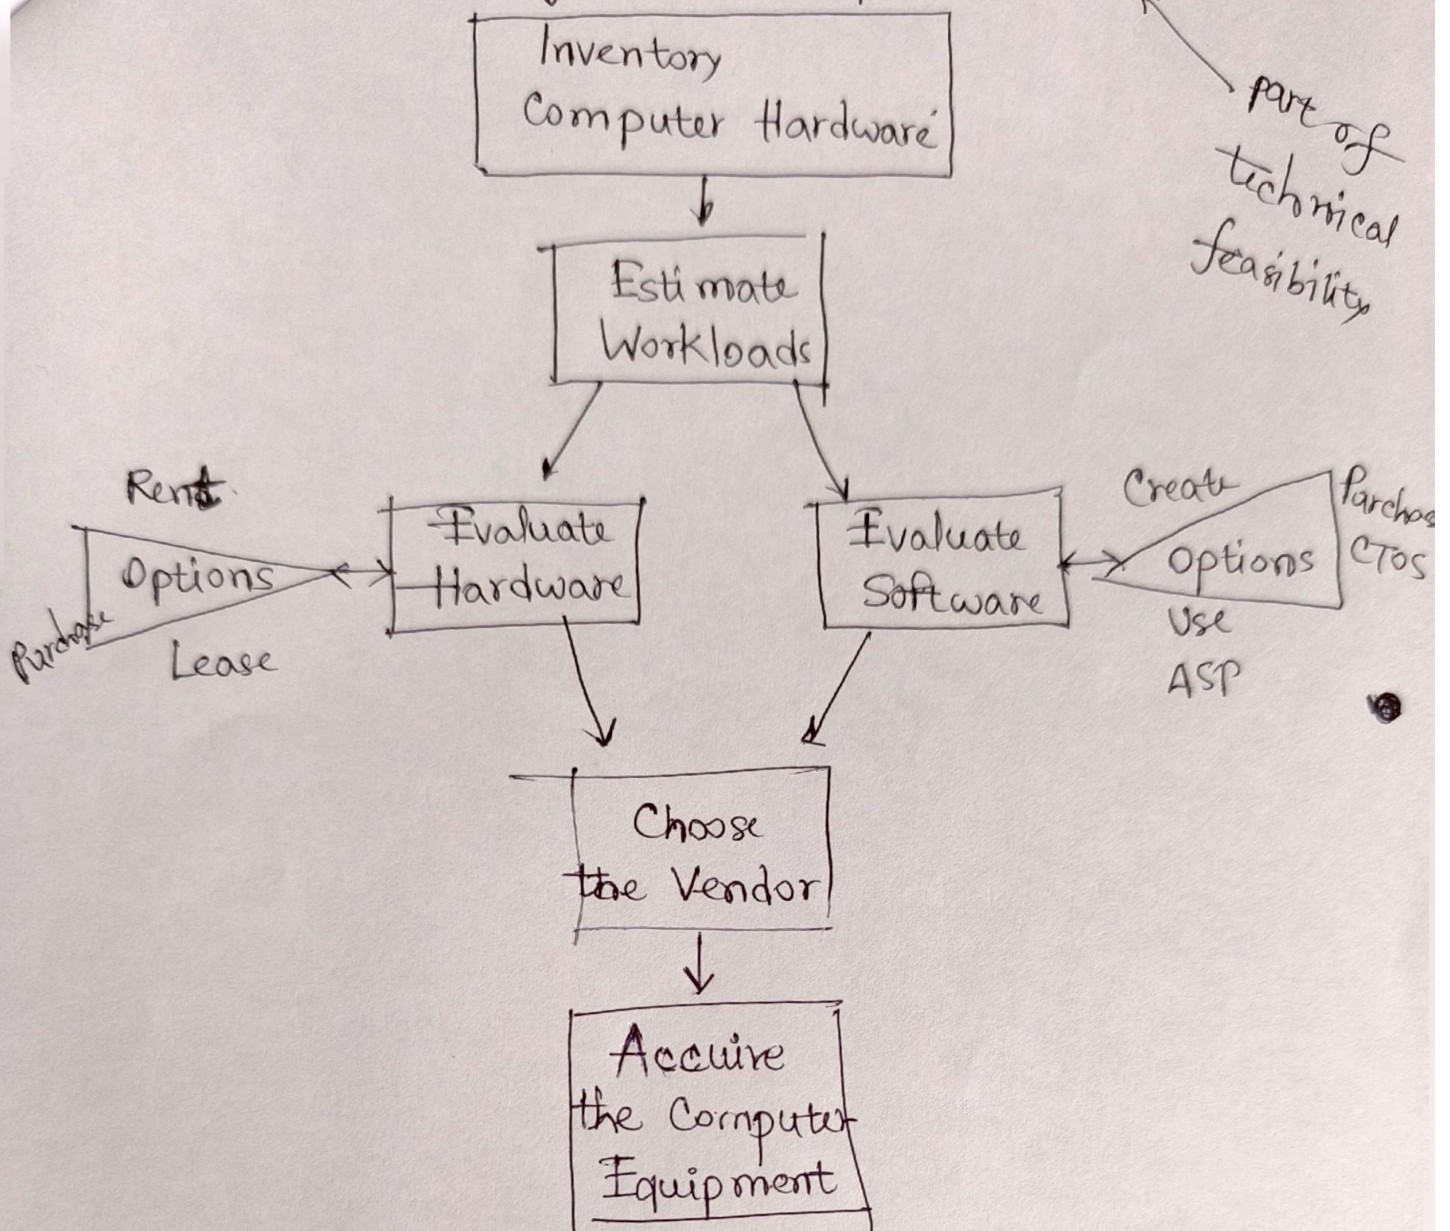

↘
No Go?

↳ Improvements?
Alternatives?

↳ Team focus on project
