

Example:

Examine the interview structure from the questions and...

- i) identify type
- ii) arrange in funnel/diamond/pyramid
- iii) which pattern/type suits better
↳ describe method, pros, cons
- iv) scenario based → open ended vs close ended

follow the sample questions after every chapter

↳ only relatable questions

chapter - 04

↳ easiest

chapter - 07

↳ easier if
implemented
properly

conditions
that support
JAD?

practice DFD

examples of level-2

UML is only applicable for OOSAD

* But in order to learn everything we are ASSUMING agile & SDLC are also following OOP (!)

* is it practical?
No, lol

UML

- ① Things/Components
- ② Relations/Connection
- ③ Diagrams/Modeling Structure

Things

- ↳ Structural Things
- ↳ Behavioral "
- ↳ Grouping "
- ↳ Annotational "

Relationships

- ↳ Structural
- ↳ Behavioral

Diagrams

- ↳ Structural
- ↳ Behavioral

Textbook SAD

Structural
↳ what ^{does} a system have?

Behavioral

↳ How a system does?

only for OOSAD

Diagrams

ଆକାଂକ୍ଷିତ

Shayan

- ① Activity Diagram ~ flow chart
- ② Class Diagram
- ③ Sequence Diagram
- ④ ~~Struct~~ State Chart

Use Case Diagrams ~ Activity Diagram

Activity Diagram

→ comes from use-cases

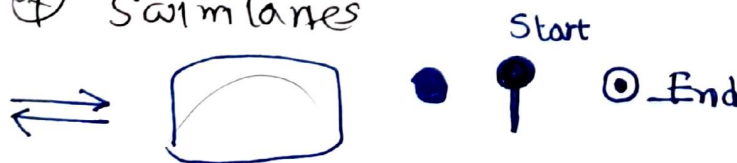

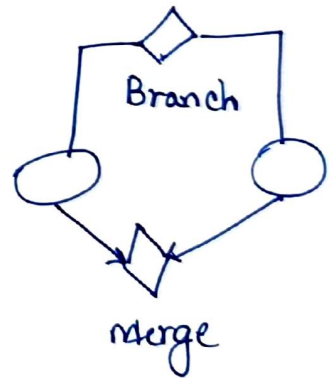

merges show
parallel activities shown

flow chart
branches show
merges not
parallel activities not shown

Show the sequence of activities in an use case, including sequential and parallel activities and decisions that are made.

Symbols

- ① Rectangle with rounded ~~ended~~ ends
- ② Arrow
- ③ Diamond
- ④ Long, flat rectangle
- ⑤ Filled-in circle
- ⑥ Black circle surrounded by a white circle
- ⑦ Swimlanes

③
