

21 April 2026

CHAPTER 11

{ Effective Output Design }

① Factor for choosing output technologies & methods

- Who will use this output
- Where is output needed
- What is the purpose
- How frequently the output is accessed
- How long the output will be stored
- Regulations depicting output, produced, stored, & distributed — the appropriate format for some output is regulated by government.
- Human & environmental requirement

② Output Bias

↑ Misleading

Bias is introduced in three main ways—

- ① How information is stored
- ② Setting of acceptable limits

Monthly Performance	
Employee Name	Task
A	← Not good but in top
B	
C	
D	

③ Choice of Graphics

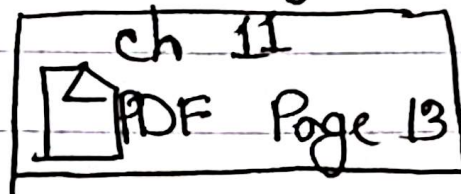

#Mitigating Bias

- ① Beware of the sources of bias
- ② Design of output that includes users
- ③ Work with users so they are informed
- ④ Flexible outputs
- ⑤ Train users

#Designing a Website

* Examine poorly designed websites

Storyboarding, Wireframing,
Mock ups

CHAPTER 12 Effective Input Design

Objectives :

- ① Effectiveness
- ② Accuracy
- ③ Ease of Use
- ④ Consistency
- ⑤ Simplicity
- ⑥ Attractiveness

Seven Sections of Form

- ① Heading
- ② Identification & Access
- ③ Instructions
- ④ Body
- ⑤ Signature & Verification
- ⑥ Total << financial form >>
- ⑦ Comments

'Captions' in forms
